Ref: AUDIT/2017-120

October 04, 2017

Board of Directors
Fairtrade Capital Securities (Private) Limited
Lahore

FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

We are pleased to enclose the financial statements of Fairtrade Capital Securities (Private) Limited ("The Company"), together with our audit report thereon. We shall be pleased to sign our audit report, in the present or modified form, after we have received:

a. Approved financial statements by the BODs and signed by the Chief Executive Officer and the Director;

b. Copy of minutes of meeting(s) wherein the financial statements were approved;

c. A representation letter signed by the Chief Executive Officer and the Company Secretary of the company as per draft already emailed to you; and

Responsibilities of the auditors and Management in relation to the financial statements

The responsibilities of the independent auditors in a usual examination of financial statements are explained in section 255 of the Companies Ordinance, 1984 and International Standards on Auditing. While the auditors are responsible for forming and Expressing their opinion on the financial statements, the responsibility for their preparation is primarily that of the Bank's Management.

Management's responsibilities include the maintenance of adequate accounting records and internal controls the selection and application of accounting policies and safeguarding of the assets of the Bank. The audit of the financial statements does not relieve Management of its responsibilities. Accordingly, our examination of the books of account and records should not be relied upon to disclose all the errors or irregularities, which are not material in relation to the financial statements taken as a whole.

Internal control systems

We are not required to carry out an examination and report on the adequacy and effectiveness of the internal control system. Consequently, we have not carried out any examination of the internal control for such purpose. However, during the course of our examination, that was planned to obtain reasonable assurance regarding the true and fair presentation of the financial statements, we reviewed certain aspects of the Bank's internal controls with the limited purpose of determining the timing, nature and extent of our substantive audit procedures.

We wish to place on record our appreciation for the cooperation extended to us by your staff and the Management of the Bank during the course of audit.

Yours truly,

Muhammad Aslam Khan

CHIEF EXECUTIVE

FAIRTRADE CAPITAL SECURITIES (PVT.) LTD. Broker Registration Code BRP-027 PSX

1 STATUS AND NATURE OF BUSINESS

Fairtrade Capital Securities (Private) Limited ("Company") was incorporated under the Companies Ordinance, 1984 on 26 May 2006 as a private limited company. The Company is a corporate TRE Certificate holder of Pakistan Stock Exchange Limited. The registered office of the Company is located at Room No. 708 and 709, 7th floor, Stock Exchange Building, Stock Exchange Road, Karachi. The Principle activities include trading and brokerage for equities, underwriting of public issues, etc.

2 BASIS OF PREPARATION

2.01 Statement of Compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan and the requirements of Companies Ordinance, 1984. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board as notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives under the Companies Ordinance, 1984 shall prevail.

2.02 Basis of measurement

These financial statements have been prepared under the historical cost convention except for certain financial instruments at fair value and employees retirement benefits at present value. In these financial statements, except for cash flow statement, all transactions have been accounted for on accrual basis.

2.03 Judgements, estimates and assumptions

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions and judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which forms the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Judgements made by management in the application of approved accounting standards that have significant effect on the financial statements and estimates with a risk of material adjustment in subsequent years are as follow:

Depreciation method, rates and useful lives of fixed assets

The management of the Company reassesses useful lives, depreciation method and rates for items of fixed assets annually by considering expected pattern of economic benefits that the Company expects to drive from that item.

Recoverable amount of assets / cash generating units

The management of the Company reviews carrying amounts of its assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

Employees retirement benefits

The present value of defined benefit obligation is based assumptions of future outcomes, the principal ones being in respect of increases in remuneration, expected average remaining working lives of employees and discount rate used to derive present value of defined benefit obligation.

Taxation

The Company takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

Provisions

Provisions are based on best estimate of the expenditure required to settle the present obligation at the reporting date, that is, the amount that the Company would rationally pay to settle the obligation at the reporting date or to transfer it to a third party.

2.04 Standards, amendments to published standards and interpretations effective in current year

The following amendments to existing standards have been published that are applicable to the company's financial statements covering annual periods, beginning on or after the following dates:

- Standards, amendments to published standards and interpretations effective in current year

Following are the amendments that are applicable for accounting periods beginning on or after 01 July 2016:

- New/Revised Standards, Interpretations and Amendments

IFRS 13- Fair Value Measurement. The standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs. The standard only affects the disclosures in the Company's financial statements.

- Improvement to Accounting Standards Issued by the IASB

IFRS 5	Non-current Assets Held for Sale and Discontinued Operations- (changes in methods of disposal)
IFRS 7	Financial Instruments: Disclosures- (servicing contracts and applicability of the amendments to IFRS 7 to condensed interim financial statements)
IAS 19	Employee Benefits- (discount rate: regional market issue)
IAS 34	Interim Financial Reporting- (disclosure of information 'elsewhere in the interim financial report')

The adoption of the above improvements to accounting standards and interpretations are not likely to have an impact on the Company's financial statements.

- Standards, interpretations and amendments to published standards that are effective but not relevant to the company

The other new standards, amendments and interpretations that are mandatory for accounting periods beginning on or after 01 July 2015 are considered not to be relevant or to have any significant impact on the company's financial reporting and operations.

- Standards, interpretations and amendments to existing standards that are not yet effective

The following amendments and interpretations to existing standards have been published and are mandatory for accounting periods beginning on or after their respective effective dates.

IFRS 10 - Consolidated Financial Statements	01
IFRS 11 - Join Arrangements	01
IFRS 12 - Disclosure of Interests in Other Entities	01
IAS 16 and 38 - Clarification of Acceptable Method of Depreciation and Amortization	01
IAS 16 and 41 - Agriculture: Bearer Plants	01

- The above standards, amendments and interpretations are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements except for the increased disclosures in certain cases.

In addition to the above, the following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standard or Interpretation

IFRS 09 -	Financial Instruments: Classification and Measurement	01
IFRS 14 -	Regulatory Deferral Accounts	01
IFRS 15 -	Revenue from Contracts with Customers	01
IFRS 16 -	Leases	01
		#REF!

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements.

3.01 Fixed Assets

Recognition and measurement

Items of fixed assets are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the item.

Parts of an item of fixed assets having different useful lives are recognized as separate items.

Major renewals and improvements of an item of fixed assets are recognized in the carrying amount of the item if it is probable that the embodied future economic benefits will flow to the Company and the cost of renewal or improvement can be measured reliably. The cost of the day-to-day servicing of fixed assets are recognized in profit and loss as incurred.

Depreciation

Depreciation is recognized in profit and loss by applying reducing balance method over the useful life of each item of fixed assets using the rates specified in note 4 to the financial statements.

Depreciation on addition to fixed assets is charged from the month in which the item becomes available for use. Depreciation is discontinued from the month in which it is disposed or classified as held for disposal.

Depreciation method, useful lives and residual values are reviewed at each reporting date.

De-recognition

An item of fixed assets is de-recognized when permanently retired from use. Any gain or loss on disposal of fixed assets is recognized in profit and loss account.

3.02 Financial Instruments

Recognition

A financial instrument is recognized when the company becomes a party to the contractual provisions of the instrument.

De-recognition

Financial assets are de-recognized if the Company's contractual rights to the cash flows from the financial assets expire or if the Company transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Financial liabilities are de-recognized if the Company's obligations specified in the contract expire or are discharged, cancelled or transferred to another party without retaining any obligation. Any gain or loss on de-recognition of financial assets and financial liabilities is recognized in the profit and loss account.

Measurement

The particular measurement methods adopted are disclosed in the individual policy statements associated with each instrument.

Offsetting financial assets and liabilities

A financial asset and a financial liability is offset and the net amount reported in the balance sheet if the Company has legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis to realize the asset and settle the liability simultaneously.

"Regular way" purchases and sales of financial assets

All regular way purchases and sales of financial assets are recognized on trade date, i.e. the date the Company commits to purchase or sell the asset. Regular way purchase or sales of financial assets are those contracts which requires delivery of assets within the time frame generally established by the regulation or convention in the market.

3.03 Ordinary share capital

Ordinary share capital is recognized as equity. Incremental costs directly attributable to the issuer of ordinary shares and share options are recognized as deduction from equity.

3.04 Borrowing

These are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, these are stated at amortized cost with any difference between cost and redemption value being recognized in the profit and loss over the period of the borrowing on an effective interest basis.

3.05 Employees retirement benefits

Short term employees benefits

The Company recognizes the undiscounted amount of short term employees benefits to be paid in exchange for services rendered by employees as a liability after deducting amount already paid and as an expense in profit and loss account unless it is included in the cost of inventories or fixed assets as permitted or required by the approved accounting standards. If the amount paid exceeds the undiscounted amount of benefits, the excess is recognized as an asset to the extent that the prepayment would lead to a reduction in future payments or cash refund.

The Company provides for compensated absences of its employees on unavailed balance of leaves in the period in which the leaves are earned.

Post-employment benefits

The Company operates an unfunded gratuity scheme (defined benefit plan) for all its permanent employees who have completed minimum qualified period for service as defined under the respective scheme. Liability is adjusted annually to cover the obligation and the adjustment is charged to profit and loss account. The determination of the Company's obligation under the scheme requires assumptions to be made of future outcomes, the principal ones being in respect of increase in remuneration, expected average remaining working lives of employees and discount rate used to derive present value of defined benefit obligation.

3.06 Trade and other payables

Liabilities for trade and other payables are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company and subsequently measured at amortized cost.

3.07 Trade and other receivables

Trade debts and other receivables are recognized initially at original invoice amount which is the fair value of trade debts and other receivables and subsequently measured at amortized cost less provision for impairment, if any. A provision for impairment is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. Trade debts and other receivables considered irrecoverable are written off.

3.08 Investment at fair value through profit and loss account

Investments are classified as investments at fair value through profit and loss account when either they are designated as such on initial recognition or are classified as held for trading. Held for trading investments are investments that are acquired principally for the purpose of selling them in the near future; or that are part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of profit taking or that are derivatives, excluding financial guarantee contracts and designated and hedging instruments.

These are recognized initially at cost. Transaction cost includes profit and loss account. Subsequent to initial recognition, quoted investments are measured at fair value. Unrealized gains and losses arising from changes in fair value are recognized in profit and loss account. Gain or loss on sale of investments is recognized in profit and loss account. Fair value of quoted investments is measured by reference to published price quotations in an active market. Unquoted investments, where active market does not exist, are carried at cost and checked for impairment at each year end. Impairment loss, if any, is charged to profit and loss account.

3.09 Investment available for sale

Investments are classified as available for sale when these are intended to be held for an indefinite period of time and may be sold in response to need for the liquidity or change in equity prices.

These are recognized initially at cost which includes transaction costs associated with the investment. Subsequent to initial recognition, quoted investments are measured at fair value. Unrealized gains and losses arising from changes in fair value are recognized in equity until the investments are disposed off or impaired. Gain or loss on sale of these investments is recognised in profit and loss account. Fair value of quoted investments is measured by reference to published price quotations in an active market. Unquoted investments, where active market does not exist, are carried at cost and checked for impairment at each year end. Impairment loss, if any, is charged to profit and loss account.

3.10 Securities sold / purchased under repurchase / resale agreements

Securities sold subject to a linked repurchase agreement ('repo') are retained in the financial statements and the counterparty liability is included in borrowings under repurchase agreements. The difference between sale and repurchase price is treated as mark-up income and is accrued over the life of agreement using the effective yield method.

3.11 Revenue

Revenue is measured at fair value of the consideration received or receivable, net of returns allowances, trade discounts and rebates, and represents amounts received or receivable for goods and services provided and other operating income earned in the normal course of business. Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Company, and the amount of revenue and the associated costs incurred or to be incurred can be measured reliably.

Revenue from different sources is recognized as follows:

Brokerage income is recognized as and when such services are rendered.

Dividend income is recognized when right to receive payment is established.

Underwriting commission is recognized as and when the contract is executed. Take-up commission is recognized at the time of actual take-up.

Commission on continuous funding system is recognized as and when accrued.

Rental income is recognized as and when accrued.

Mark-up on saving account is recognized on time proportion basis.

3.12 Borrowing cost

Borrowing cost directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying asset is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the profit and loss as incurred.

3.13 Income tax

Income tax expense compromises current tax and deferred tax. Income tax expense is recognized in profit and loss account except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the amount of tax payable on taxable income for the year, using tax rates enacted or substantively enacted by the reporting date, and any adjustment to the tax payable in respect of previous years. Provision for current tax is based on higher of the taxable income at current rates of taxation in Pakistan after taking into account tax credits, rebates and exemptions available, if any, or 1% of turnover. However, for income covered under final tax regime, taxation is based on applicable tax rates under such regime. The amount of unpaid income tax in respect of the current or prior periods is recognized as a liability. Any excess paid over what is due in respect of the current or prior periods is recognized as an asset.

Deferred tax is accounted for using the balance sheet liability method providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. In this regard, the effect on deferred taxation of the portion of income that is subject to final tax regime is also considered in accordance with the requirement of "Technical Release-27" of the Institute of the Chartered Accountants of Pakistan. Deferred tax is measured at rate that are expected to be applies to the temporary differences when they reverse, based on laws that have been enacted or substantively enacted by the reporting date. A deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for deductible temporary differences to the extent that future taxable profits will be available against which temporary differences can be utilized. Deferred tax asset are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is not recognized for timing differences that are not expected to reverse and for the temporary differences arising from the initial recognition of goodwill and initial recognition of assets and liabilities in a transaction that is not a business combination and that at the time of transaction affects neither the accounting nor the taxable profit.

3.14 Cash and cash equivalents

Cash and cash equivalent for the purpose of cash flow statement compromise cash in hand and in current accounts with various banks after deducting balances under lien, if any. Cash and cash equivalents are carried at cost.

3.15 Foreign currency transactions and balances

Transactions in foreign currency are translated to the functional currency of the Company using exchange rate at the date of transaction. Monetary assets and liabilities denominated in foreign currency at the reporting date are translated to the functional currency at exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currency that are measured at fair value are translated to the functional currency at exchange rate at the date that fair value was determined. Non-monetary assets and liabilities denominated in the foreign currency that are measured at historical cost are translated to functional currency at exchange rate at the date of transaction. Gain or loss arising on translation of foreign currency transactions and balances is recognized in profit and loss account.

3.16 Functional currency

These financial statements are prepared in Pak Rupees which is Company's functional currency.

3.17 Impairment

An impairment loss is recognized if the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. Impairment losses are reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortization, if no impairment loss had been recognized.

3.18 Related party transactions

Related party transactions are carried out on an arm's length basis. Pricing for these transactions is determined on the basis of comparable uncontrolled price method, which sets the price by reference to comparable goods and services sold in an economically comparable market to a buyer unrelated to the seller.

3.19 Provisions

Provisions are recognized when the Company has a legal and constructive obligation as a result of past events and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

3.20 Accounting Policy

Brokerage house uses trade date accounting policy for recording the transctions.

5.02 This represents trading rights in Pakistan Stock Exchange Limited which have replaced membership cards of stock exchange pursuant to the promulgation of Stock Exchanges (Corporatization, Demutualization and Integration) Act, 2012 (the 2012 act). Before demutualization the stock exchanges were functioning as Guarantee Limited Companies, wherein ownership and trading rights were conferred to members through membership cards. Pursuant to demutualization, the ownership in a stock exchange has been segregated from the right to trade on the exchange. Therefore, the membership cards have now been replaced by shares in the exchange representing ownership in the exchange and Trading Rights Entitlements Certificates (TREC) representing rights to trade in the exchange. As result 4,007,383 shares have been allotted to the Company out of which 60% of the shares are blocked in a separate account held with CDC and would be sold to strategic investors and general public in future at a price which remains to be finalized, proceeds of which would come to the members, while the remaining 40% are available to members with no condition on their future sale. The Institute of Chartered Accountants of Pakistan in its technical guide dated May 29, 2013, concluded that the demutualization, in substance, had not resulted in exchange of dissimilar assets, and therefore no gain or loss should be recognized and the segregation of ownership rights and the trading rights should be accounted for by allocating the cost / carrying value of the membership card between the two distinct assets on a reasonable basis. The TREC can only be sold or transferred once, however, once sold it would not be sellable / transferable again. The transaction is in nature an exchange of an intangible asset (membership card) with a financial asset (shares) together with an intangible asset (TREC).

Further recently, the PSX has introduced a minimum capital regime for the brokers, and for this purpose have revalued TREC at Rs. 5,000,000/- as per the decision of the BOD of the PSX. This fact indicates an acceptable level of value for TREC which is also used by the Stock Exchange for risk management and to safeguard the investor's interest. In the absence of an active market for TREC, this assigned value of Rs. 5,000,000/- has been considered as the closest estimate of the fair value of the TREC.

The value of the TREC and shares have thus been measured at the value of the membership card with which they have been exchanged. For this purpose value of the membership card has been allocated between TREC and shares on proportionate basis at ratio of 32:68 which has been determined on the basis of the above estimates of fair value of TREC and KSE Shares.

25.01 Basic

(Loss) / profit attributable to ordinary shareholders	65,360,950	(90,934,490)
Weighted average number of shares	1,850,000	1,850,000
(Loss) / earning per share - basic	35.33	(49.15)

25.02 Diluted

There is no dilutive effect on the basic earnings per share of the company because the company has no outstanding potential ordinary shares.

26 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

FINANCIAL RISK MANAGEMENT

The Company's activities expose to a variety of financial risks from use of financial instruments including:

Credit risk
Liquidity risk
Market risk

The company's overall risk management programmed focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

The Board of Directors has overall responsibility for the establishment and oversight of company's risk management framework. The board is also responsible for developing and monitoring the company's risk management policies.

COMPANY RISK MANAGEMENT OBJECTIVE AND POLICIES

The company risk management policies are established to identify and analysis the risk faced by the company, to set appropriate risk limits and controls, and to monitor risk and adherence to limits. Risk management policies and system are reviewed regularly to reflect changes in market conditions and the company's activities. The company, through it's training and management's standards and procedures, aims to develop discipline and constructive control environment in which all employees understand their roles and obligations.

The company's management oversees how management monitors and compliance with company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risk faced by the company.

26.01 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter party fail completely to perform as contracted and arise principally from trade receivables, loans and advances and trade deposits.

To manage exposure to credit risk in respect of trade debts. Management maintains procedures covering the application for credit approvals, granting and renewal of counter parties limit taking into account the customer's financial position, past track record, credit rating and factors. As a part of these processes, exposures of credit risk are regularly monitored, assessed and customers are persuaded for prompt recovery. In addition to this the company has established an allowance for impairment that is estimate of expected losses in respect of trade debts. This allowance is based on management assessment of specific loss component that relate to significant exposures. Sales and purchase transactions are also excluded against advance payments to further prudently manage the credit risk.

The company limits its exposure to credit risk by following the policies and procedures of approval and continuous monitoring of loans and advances extended to management / staff and supplier and maintain bank account only with counterparty that have high degree of credit rating. Advance tax is adjustable or recoverable from FBR which is a State authority and high credit rating. Given these high credit ratings, management do not expect that any of these counterparty fail to meet its obligations.

	Rating Agency	Credit Rating
		Short term
Bank Islami Pakistan Limited	PACRA	A1
Bank Alfalah Limited	PACRA	A1+
MCB Bank Limited	PACRA	A1+
Bank Al Habib Limited	PACRA	A1+

26.02 Exposure to credit risk

Credit risk of the Company arises principally from its trade debts, long term deposits, advances, deposits and other receivables and bank balances. The carrying amount of these financial assets represents the maximum credit exposure.

	Note	2017 Rupees	2016 Rupees
Long term deposits	7	15,095,191	600,000
Trade receivables	8	14,782,838	11,027,021
Advances and other receivables	10	39,228,200	23,457,370
Bank balances	12	21,906,827	4,251,577
		91,013,056	39,335,968

To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their worth and proper margins are collected from and maintained by the clients. The Management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful for recovery.

The Company's policy is to enter into financial contracts in accordance with the internal risk management policies and investment and operational guidelines.

All transactions in listed securities are settled using National Clearing Company of Pakistan Limited, being the central clearing company of the country. The risk of default in such transactions is considered minimal, as delivery of securities is guaranteed by the stock exchange. The Company does not expect to incur material credit losses on its financial assets.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date was :

	NOTE	2017 Rupees	2016 Rupees
Long term investments	6	41,163,838	39,993,682
Long term deposits	7	15,095,191	600,000
Trade receivables	8	14,782,838	11,027,021
Short term investments	9	7,867,036	16,828,513
Advances and other receivables	10	39,228,200	23,457,370
Bank balances	12	21,906,827	4,251,577
		98,880,092	56,164,481

26.03 Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similar affected by the changes in economic, political or other conditions. The company believes that it is not exposed to major concentration of credit risk.

The allowance accounts in respect of trade receivables, loans and advances are used to record impairment losses unless the company is satisfied that no recovery of the amount owing is possible, at that point the amount considered irrecoverable is written off against the financial asset directly.

26.04 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding to an adequate amount of committed credit facilities and the ability to close out market position due to dynamic nature of the business. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Under both normal and stressed conditions, without incurring unacceptable losses or risking damages to the company's reputation.

The following are the contractual maturities of financial liabilities as at 30 June 2017 and 2016.

26.05 Market risk

The Company's activities expose it to a variety of market risks (in addition to liquidity and credit risks). Market risk with respect to the Company's activities include interest rate risk, currency risk and other price risk.

Interest rate risk arises from the possibility that changes in interest will affect the value of financial instruments. Company is exposed to interest rate risk as a result of mismatches or gaps in the amounts of financial assets and liabilities that mature or reprise in a given period.

Cumulative interest rate sensitivity gap	21,104,335	21,104,335	21,104,335		

Mark-up rates are mentioned in the respective notes to the accounts.

26.06 Foreign currency risk management

Foreign currency risk arises mainly where receivables and payables exists due to the transactions with foreign undertakings. Financial assets and financial liabilities of the company are not exposed to currency risk as the company has not entered into any transaction with any foreign undertakings.

26.07 Interest rate risk management

Interest / mark-up rate risk arises from the possibility that changes in interest / mark-up rates will affect the value of financial instruments. The Company has significant amount of interest based financial assets and financial liabilities which are largely based on variable interest / mark-up rates, therefore the Company has to manage the related finance cost which exposes it to the risk of 01 month, 3 months and 6 months KIBOR. Since the impact on interest rate exposure is significant to the Company, management is considering the alternative arrangement to manage interest rate exposure in future.

26.08 Capital risk management

The company's objectives when managing capital are to safeguard the company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other shareholders, and to maintain a strong capital base to support the sustained development of its businesses.

The company manage its capital structure by effective cash flow management to ensure availability of funds and by monitoring return on net assets and make adjustments thereto in the light of changes in economic conditions. Consistent with the others in the industry, the company manage its capital risk by monitoring its debt levels and liquid assets and keeping in view future requirements and expectations of the shareholders. Debt is calculating as total borrowings. Total capital comprises shareholders equity as shown in the balance sheet under share capital and reserves. In order to maintain or adjust the capital structure, the company may also adjust the amount of dividends paid to shareholders or issue new shares.

26.09 Other price risk

Other price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The company is not exposed to any price risk as there are no financial instrument at the reporting date that are sensitive to price fluctuations.

Fair value of financial assets and financial liabilities

The carrying value of financial assets and liabilities reflected in the financial statements approximate to their fair value.

27 RELATED PARTY TRANSACTIONS

The related parties comprise of major shareholders, associated companies with or without common directors, directors of the company and key management personnel, staff provident fund, and financial institution having nominee on the Board of Directors. The remuneration of Director is disclosed in note 28 to the financial statements.

29 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received so sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is going concern and there is no intention or requirements to curtail materially the scale of its operation or to undertake a transaction on adverse terms.

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.

29.01 RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

29.01.1 Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

As at 30 June 2017	Level 1	Level 2	Level 3	Total
Financial asset:				
Held for trading				
Investment in listed securities	7,867,036	-	-	7,867,036
Available for sale				
Investment in PSX shares	-	-	41,163,838	41,163,838
Total non-financial assets	7,867,036	-	41,163,838	49,030,874

As at 30 June 2016	Level 1	Level 2	Level 3	Total
Financial asset:				
Held for trading				
Investment in listed securities	16,828,513	-	-	16,828,513
Available for sale				
Investment in PSX shares	-	-	39,993,682	39,993,682
Total non-financial assets	16,828,513	-	39,993,682	56,822,195

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

30 SUBSEQUENT EVENTS

There were no significant adjustable events subsequent to 30 June 2017, which may require an adjustment to the financial statements or additional disclosure and have not already been disclosed in these financial statements.

31 Clients' Assets

Clients assets' held in CDC system	333,529,664	N/A
Clients assets' held in separate bank account	9,708,010	N/A
	343,237,674	

32 NUMBER OF EMPLOYEES

The total number of employees as at June 30, 2017 were 14 (June 30, 2017: 27) and the average number of employees during the year were 13 (June 30, 2017: 27).

33 DATE OF AUTHORIZATION FOR ISSUE

The above financial statemnets have been authorized for issue by the board of directors of the company as on 04 October 2017.

34 GENERAL
